

ABBAMANIA

BIOGRAPHY

A Canadian produced rock musical of the supergroup **ABBA**, one of the best pop bands in history. Taking us back to the disco 70's era, ABBAMANIA features a stage cast of incredible live musicians and singers including full violin and horn sections, which are the main highlights of this musical. The similar look and vocal sound of the four main performers as Anni-Frid, Bjorn, Benny and Agnetha is truly unbelievably.

ABBAMANIA has performed to sold out houses, while touring around the world. Asia, Canada, U.S.A, Europe and many other places. Home base is Toronto, Canada where the group performed to a sold out Roy Thompson Concert Hall, January 2006 and will be returning by popular demand. With standing ovations and people in the audience asking, "Is this really ABBA"?

ABBAMANIA includes all of **ABBA**'s hits, fabulous costume changes, choreography, and entertaining banter on stage, just as the real Abba.
