

JAY ZANIER

BIOGRAPHY

Jay Zanier has been an entertainer and world class Elvis tribute artist for over 15 years. Born and raised in North York, Ontario, Jay has dedicated many hours studying the King's movies and taped concert performances, to understand the man and his magic. The use of costumes and props add authenticity to his performances. His extraordinary similarity to Elvis' voice, coupled with his endless energy, always leaves his audiences with an incredible feeling of having experienced the King himself.

Jay enjoys performing all types of music, particularly top hits from the 50's 60's and 70's. His powerful voice lends itself beautifully, to also performing in the R & B, and country categories, outside of his Elvis tribute. As a versatile performer, he presently sings lead with his band at various venues, special events, theatre's, as well as both private and corporate functions.

He has won numerous contests in Canada and the U.S.A., marking him as one of the top tribute artists in North America. He prides himself as a passionate performer, who's goal is to continue to entertain his audiences, always giving his best, for an evening of unforgettable enjoyment.
